Hello Terry F. and Terry S.,

First off- situation normal on this work. Nothing has changed. We are on a trajectory to have the allocation report delivered to EPA R2 on or before Dec. 28.

Alice and I would like to discuss with you what activities may be needed post- allocation report delivery and come up with some contingencies contract-wise to address them. For example, the report is going to be lengthy and detailed so R2 would like to be able to ask A/E clarifying questions, like where to find something, or may need to ask for more detailed explanations that may take more of an effort. It's possible all this will fit within the existing TO, but we really won't know until the report is delivered and R2 has a chance to look it over. So contingencies, just in case more support is needed.

Alice- did I capture this correctly?

In any case, could everyone let me know a 30 minute block that may work this week or next? I'll set something up.

Thanks all. Hope everyone is staying well.

-Laura
